May Horoscopes and Birthdays

In astrology, those born May 1–20 are Bulls of Taurus. Like bulls in a pasture, Taureans enjoy relaxing in serene environments. They also work hard and expect to be rewarded for their efforts. Those born from May 21–31 are Twins of Gemini. Perhaps because twins are born with a companion, Geminis love to communicate with others. They are flexible and clever extroverts who can make persuasive arguments.

Motherhood: Priceless

How will you show Mom that you care on this Mother's Day, May 8? In its early days, Mother's Day was celebrated by attending church and sending Mom a handwritten letter. Today, Mother's Day is a \$28 billion industry. As well it should be! After all, if we were to pay Mom for the various tasks she performs, that salary would be over \$116,000 a year. The least we can do is shower her with gifts! Mothers aren't the only ones who look forward to the holiday. It is the busiest day of the year for restaurants, with 80 million people dining out. Jewelry stores make out big, too. Shoppers spend \$5 billion on new bling for Mom. When Mother's Day began in 1914, the floral industry declared that carnations were the best way to honor mothers: red carnations for moms still living, and white for those who had passed. Today, the tradition of gifting flowers lives on. Mother's Day is the number one day for floral sales, which total \$2.66 billion.
